

THE MOVIE

Do you ever feel like screaming about the climate emergency? With our world teetering on the brink of irreversible climate chaos, we must rapidly build a movement powerful enough to move our political and business leaders.

Join our mission to create the Movie, a narrative feature film and Empowerment Platform, to engage and inspire people to activate their power and take meaningful action on the climate emergency.

Our Approach

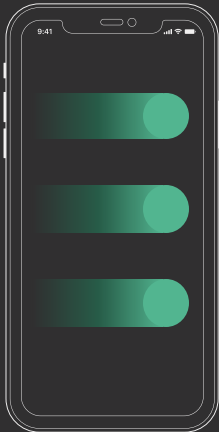

Our 3-step approach harnesses the power of human emotion as a springboard to climate action

The Movie

As the end credits roll – when the audience is in the emotional state they need to be in to take the climate actions that align with their values – they’re invited to the Empowerment Platform, through the QR code, to activate their power and take 3 easy and meaningful climate actions

The Empowerment Platform

THE 3 MOVES

Move the Message

Move the Mandate

Move the Money

Current Status

Screenplay
Raise Funding
Solidify Team

Empowerment Platform
People-Powered Climate Action
Support Climate Action Non-profits
